

Montana Association for the Education of Young Children

MtAEYC -2010 Call for Presenters

Call Deadline: June 15, 2010

The conference committee is pleased to issue a call for presenters for the Annual Early Childhood Conference to be held at Sentinel High School in Missoula, MT, October 21-23. The conference will have a math/science emphasis.

One, Two, Buckle My Shoe... Three, Four, Let's Explore!

MtAEYC is committed to providing the highest quality professional development opportunities for early childhood educators. As part of our continuing efforts to promote the exchange of information and resources among professionals who work with young children and their families, we sponsor our annual conference, which is known for its high "take away" value and camaraderie. Your leadership and ability to share your knowledge are the reasons you have been invited to present at this conference.

This year's conference keynote speaker is Juanita Copley, EC Mathematics Department Head, University of Texas and author of several mathematics texts for use with young children. MT Fish Wildlife & Parks will share their new science curriculum "Growing Up Wild". First Lady and botanist, Nancy Sweitzer, will welcome participants and enlighten us regarding Montana's Science and Math Initiative.

In crafting your presentation proposal, we encourage you to consider both our conference theme as well as the needs and interests of our various membership constituencies, including administrators, educators, parents, and all who work with families and children birth to age 8.

Thank you for giving this invitation your thoughtful consideration and we hope that you will join us for our annual early childhood conference. Please complete and return the attached form electronically or via USPS. The conference committee will contact you with further information and confirmation of acceptance by Sept. 1st. Feel free to make additional copies to distribute to interested professionals.

Sharon DiBrito, chair
MtAEYC 2010 Annual Conference Committee
